

The Government of the Federated States of Gapla is proud to report that the government has found unclaimed land and is claiming it as of Aug 31, 2021 , and integrating it into a new colony called the Kingdom of Gaplan Antarctica, and may have plans to join the Antarctic Micronational Union (AMU).

If anyone feels that they have claimed the land before, please contact us at [info@gaplagov.org](mailto:info@gaplagov.org) for immediate action.

Government officials have spent countless hours reviewing for possible previous claimants and reasons that the land is not a valid area to claim.

This is done in accordance with the Constitution of the Federated States of Gapla. This act is effective immediately.

---

Wyatt Seungri Baek, President of the Federated States of Gapla
